EDUCATION

Softronics Institute — Calicut, India
Full Stack Web Development — **Nov 2023 – Dec 2024**

PEEKAY CICS Arts and Science College, University of Calicut, Calicut — Kerala, India
Bachelor of Computer Applications - Computer Science; — **June 2020 – March 2023**

- Studied Data Structures, Web development, OOP, and Database Systems.
- Final Project: **FITME** - Web app using Flask, OpenCV for automated body measurement and MySQL for storage.

SKILLS SUMMARY

- **Languages:** JavaScript (ES6+), HTML, CSS
- **Frontend Frameworks and Libraries:** React.js, Redux, Tailwind CSS, Next.js, Framer Motion, GSAP
- **Backend Frameworks:** Node.js, Express.js, JWT
- **Databases:** MongoDB, MySQL
- **Tools:** Git, Postman, NPM, Yarn, Vite, Webpack, Version Control
- **Platforms:** Visual Studio Code, Cursor
- **Deployment:** Vercel, Netlify, Render
- **Other Technologies:** RESTful APIs,

WORK EXPERIENCE

Unified Mentor Pvt. Ltd. (Web Development Intern) — **June 2025 - Present**

- Developing a full-stack EV Recharge Bunk web application using **Next.js**, **React**, **Node.js**, and **MongoDB** to enable EV users to locate and book charging stations in real-time
- Integrated **Google Maps API** for real-time location tracking and search functionality of EV recharge points.
- Implementing key features like slot booking, charging status updates, and exploring WebGL for interactive UI visualizations.
- Collaborating in an agile environment, following version control practices with Git, and ensuring responsive UI using Tailwind CSS.

Softronics (Mern Stack Developer Intern) — **Nov 2023 - June 2024**

- Developed 10+ modular UI components using React.js and Tailwind CSS, reducing development time by 30%.
- Collaborated in Agile sprints to deliver full-stack features, increasing delivery speed by 20%.
- Integrated REST APIs and implemented JWT authentication, enhancing app security and reliability.
- Troubleshoot and resolved 15+ bugs using Chrome DevTools and GitHub issues.
- Maintained version control via Git and streamlined code reviews using reusable logic.

PROJECTS

AM Bookstore (MERN Project) | LINK — **Aug 2024 - Oct 2024**

- Build a complete bookstore SPA with 50+ listings, cart functionality, and admin/user dashboards.
- Integrated search, filters and secure checkout using razorpay, reducing friction in user flow.
- Integrated JWT for secure authentication, improving data security and decreasing unauthorized access by 45%.
- Deployed on Vercel (frontend) and Render (backend), maintaining 99.9% uptime.

Quretto Cafe (Frontend Project | React.js | TheMealDB API) | LINK — **Nov 2024 - Dec 2024**

- Developed a dynamic food-ordering UI with persistent cart and real-time API filtering.
- Used React Context API for cart state, improving consistency across pages..
- Improved mobile responsiveness and load speed with Tailwind CSS and Netlify hosting.

CERTIFICATES

Full Stack Web Development Certification — **Dec 2024**

- Mastered HTML, CSS, JavaScript, Frontend and backend Frameworks and Libraries
